PROFESSIONAL SUMMARY

Computer Engineering student (Diploma + B.E.) specializing in full-stack MERN development and AI/ML. Proficient in building real-time web applications with React and Node.js, and developing end-to-end predictive ML pipelines using Python, TensorFlow and Scikit-learn. Passionate about delivering scalable, data-driven solutions through clean engineering and modern AI tools.

TECHNICAL SKILLS

Web Development: React.js, Node.js, Express.js, Socket.io, EJS, HTML5, CSS3, JavaScript (ES6+)

AI/ML & Data Science: Python, Scikit-learn, TensorFlow, Keras, Pandas, NumPy, Streamlit, Microsoft Copilot

Databases & Tools: MongoDB, MySQL, Git/GitHub, Command Line, Basic AWS/Cloud

Core CS: Data Structures & Algorithms, C, C++, Java, OOP

PROJECTS

Healthcare Medical Analytics System

Python · Scikit-learn · TensorFlow · Keras · Streamlit · Pandas · Matplotlib

- Built a Streamlit web app for patient data analysis, ECG prediction, and healthcare insights visualization.
- Integrated deep learning models (TensorFlow/Keras) for ECG signal prediction and generated medical PDF reports via ReportLab.
- Structured a full ML pipeline covering data ingestion, model training, and result export.

Real-Time Chat Application

React.js · Node.js · Express · Socket.io · EJS · MongoDB

- Engineered low-latency, bi-directional live messaging using Socket.io supporting concurrent users with minimal lag.
- Built server-side rendered pages with EJS and a RESTful Express backend handling user sessions, rooms, and message flows.
- Designed modular architecture allowing feature extensions (read receipts, typing indicators) without breaking existing logic.

EXPERIENCE

AI/ML Intern — Microsoft Elevate (GTU Program)

Jan 2026 – Apr 2026

Microsoft Elevate & Philanthropies · Fice Education Pvt. Limited · 12 Weeks

- Completed 12-week Microsoft Elevate – GTU Internship on Artificial Intelligence, Machine Learning, and Microsoft Copilot.
- Gained practical exposure to emerging technologies and AI-powered tools under Microsoft India's Elevate initiative.
- Applied Copilot and generative AI concepts to real-world problem-solving scenarios across the program.

AI/ML Virtual Intern — SmartBridge

Jun 2025 – Aug 2025

- Developed end-to-end ML models using Python covering EDA, feature engineering, model training, and evaluation.
- Applied evaluation metrics (accuracy, F1, ROC-AUC) to compare algorithms and identify the most effective approach.

EDUCATION

Bachelor of Engineering in Computer Engineering

Sep 2023 – May 2026

V.V.P. Engineering College, Rajkot | CGPA: 7.62

Diploma in Computer Engineering

Oct 2020 – Aug 2023

A. V. Parekh Technical Institute, Rajkot | CGPA: 7.69

CERTIFICATIONS & INTERESTS

Certifications: Microsoft Elevate – GTU AI/ML Internship (2026) • AI/ML Virtual Internship – SmartBridge (2025)

Interests: Full-Stack Development, ML Research, Competitive Programming, Chess
